Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 1-15 are pending in this Office Action.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 2, 4, 7-10, 12 and 14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 2, 7 and 12 recites the limitation "step 4)" in line 7. There is insufficient antecedent basis for this limitation in the claim.

Double Patenting

4. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

5. Claims 1-15 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 5-7 of U.S. Patent No.

Art Unit: 2654

6,684,187. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claim language of claims 1, 6 and 11 are merely broadens claimed subject matter of claims 5-7 of the patent. Claims 2-5, 7-9 and 12-15 are changes the language, scope of the claims are same as claims 5-7 of the Patent.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

7. Claims 1, 3, 5, 6, 11, 13 and 15 are rejected under 35 U.S.C. 102(e) as being anticipated by Acero et al. (US 6,163,769).

As per claim 1, Acero teaches, "a triphone preselection cost database for use in speech synthesis", the database generated according to a method comprising:

"selecting a triphone sequence" (col. 5, lines 1-24, reads on "the recorded speech is stored in any one of the suitable memory device . . . wide range of different phonetic samples that illustrate phonemes in various contexts");

Art Unit: 2654

“calculating a preselection cost for each 5-phone sequence $u_a-u_1-u_2-u_3-u_b$, where u_2 is allowed to match any identically labeled phoneme in a database and the units u_a and u_b vary over the entire phoneme universe” (col. 5, lines 38-54); and

“storing a group of the selected triphone sequences exhibiting the lowest costs in a triphone preselection cost database” (col. 5, line 55 to col. 6, line 15).

As per claim 3, Acero teaches, “the method for generating the database further comprising generating a key to index each triphone in the database” (col. 5, lines 55-67).

As per claim 5, Acero teaches, “wherein the preselection cost is the target cost or an element to the target cost” (col. 7, lines 45-60).

As per claims 6, 11, 13 and 15, they are interpreted and thus rejected for the same reasons set forth in the rejection of claims 1, 3 and 5.
